Subject: RE: USEPA-Town of Lewiston Environmental Board Request

Good Morning:

Yes, I received the addresses below.

Harold W. Wade, 5380 Robert St., Lewiston, 14092

Walter D. Michaels, 5382 Robert St., Lewiston, 14092

I am already in touch with the third property owner. EPA (me) will offer gamma **survey** assessment to the Robert Avenue residents across from Holy Trinity Cemetery. I try to avoid using the words "testing" or "sampling" because that usually means soil sampling or activities other than a real time survey instrument survey.

I will drop off a written letter to the addresses describing the situation and our proposed survey. There are no further actions required by the town at this time. I will keep you posted of the progress.

Thanks

Regards,

Eric

Good Morning. Did you get my email with the addresses in question? Do I have to do anything further. The Niagara County Health Department has agreed to do gamma testing (???) . Is this what the EPA is doing or should I contact them to proceed? PLease advise.

Thanks. I was in contact with the town supervisor and other representatives regarding the Site but this specific request came from Jerry Wolfgang at the meeting. Jerry informed our public affairs official to correspond through you. I do not have an email address for Jerry. Are you corresponding with him?

I will work with the Bldg. Insp. and get back to you ASAP with the names/addresses. Sorry for the delay. I thought the Town Supervisor was corresponding with the EPA.

Good Morning:

This was a request by the Environmental Board to EPA. I am not sure if there was outreach from the Robert Ave residents to the board or the board just made the request on their own. I can start reaching out to the residents if I have the information.

Thanks

I will be working on getting the names and addresses of those residents. Who is to contact them as to whether they want this survey conducted? Do you do this?

Good Afternoon:

I have not received a response to the inquiry below from either the Lewiston Environmental Board or any individual property owners. Please let me know if this means there is no interest in the gamma surveys requested by Gerry Wolfgang.

Regards,

Eric

Subject: USEPA-Town of Lewiston Environmental Board Request

Importance: High

Good Afternoon Carole:

Mike Basile (USEPA Public Affairs Official) attended Town of Lewiston Environmental Board Meeting on June 20th. There were six members of the commission present as well as two guests and the town clerk (I assume this is you?). Mike provided the attendees with a copy of the Holy Trinity fact sheet and also provided some maps to illustrate the areas that we have fenced off. The chairperson, Gerry Wolfgang, asked that we consider conducting residential surveying to the west of the fenced off area. There is no data or historical information that leads us to assess those areas. However, since the Town has requested, I would conduct gamma surveys in the yards and inside the homes if the individual resident desire. Meaning, we would need information on each resident (owner name, parcel #, address, phone/email) and then contact them to see if they want this survey to be conducted. I was told you were the contact to obtain this information and work through you.

Once we have contacted the residents, we would then need an access agreement to perform these surveys. These surveys are non-intrusive and will give real time readings of the gamma radiation emanating from the surface.

Please advise. Thanks

Regards,

Eric
